

What benefits can I claim?

findbenefits.co.uk · confirm every figure on the official page

Start with status, not a list

There is no single list that fits everyone. Age, immigration status, postcode, income, savings, children and housing each close or open a scheme.

A British citizen and a person with no recourse to public funds are not looking at the same catalogue. Status is read before the postcode.

What the free check does

The check names schemes that are still open on the facts you enter, and it names the rule that ruled the others out. A match is not an award.

GOV.UK also has a benefits calculator. If the two disagree, the official page wins.

What you pay for

Looking is free. A written pack is £29, however many schemes you save. It includes the evidence list and the lines for the form. You file it yourself. Nothing is sent to a department.
